

GIPO GS 123 2 DECK SCREEN

NOTE: INFORMATION AND PHOTOGRAPHS ARE FOR BASE UNITS AND MAY NOT BE SPECIFIC TO UNITS OFFERED

The GIPO GS123 2 Deck Screen is suitable for a wide range of applications offering optimum transport characteristics and short setup times. The powerful screens ensure a high level of throughput and precise material separation. The screening plants use diesel hydraulic drives with powerful engines. The fully-hydraulic drive concept is totally resistant against dust, humidity and vibrations.

The GS123 2 Deck scalping screen is designed to sort material before the first crushing process. Large screening media such as bar screens, finger screens, perforated plates or wire mesh screens are used for this purpose.

Screening Machine
 2 Deck /1220 x 2800 (2590)mm

Capacity Up to 200tph
Powerpack CAT/ 97kW

Transport
 Length 9680mm
 Width 2500mm
 Height 3200mm
 Weight 15400kg
