

# GIPO GS 155 2 DECK SCREEN

*NOTE: INFORMATION AND PHOTOGRAPHS ARE FOR BASE UNITS AND MAY NOT BE SPECIFIC TO UNITS OFFERED*

The GIPO GS155 2 Deck Screen is suitable for a wide range of applications offering optimum transport characteristics and short setup times. The powerful screens ensure a high level of throughput and precise material separation. The screening plants use diesel hydraulic drives with powerful engines. The fully-hydraulic drive concept is totally resistant against dust, humidity and vibrations.

The GS155 2 Deck scalping screen is designed to sort material before the first crushing process. Large screening media such as bar screens, finger screens, perforated plates or wire mesh screens are used for this purpose.

## Screening Machine

2 Deck /1524 x 4880 (4575)mm

**Capacity** Up to 400tph  
**Powerpack** CAT/ 97kW

## Transport

**Length** 15300mm  
**Width** 2900mm  
**Height** 3400mm  
**Weight** 32700kg
